

# Geog Walk Planning Tool

## Information gathering stage

- What are your state's geographical regions?

*Keywords to search:*

Your state (or country) + natural divisions  
Ecoregions  
physiographic regions  
geographical regions

- What are the key characteristics of each region?

*Keywords to search:*

Region + geology  
water  
climate  
soil  
plants  
animals  
people

- What trails/parks are in each region? If the region is too far for travel, what "small thing" locally could be used as a substitute?

Search for:

State parks

National parks

Natural history museums

Regional museums with history of area

Local university/college/community college

Programs in the area on key topics

Personal contacts that may have relevant information
